

# Construction Recycling

## Going green just got easier!

You put recyclable materials like lumber scraps and cardboard in one container, and we pick it up. It's that easy!

### We Accept:

Aluminum • Cardboard • Conduit • Drywall • Electrical Cables • Lumber • Metal siding • Masonry Nails • Office Paper • PVC Pipe • Roof Decking • Screws • Shrink Wrap • Steel • Wires • Wood

### Unacceptable:

Asphalt • Concrete In Large Chunks • Demolition Debris • Fiberglass Insulation • Macadam Treated or Painted Lumber

## Who We Are

- Locally owned and operated
- Commercial trash and recycling hauler
- Dependable, courteous drivers
- Service within 24 hours of your call

## We make recycling easy at any size.

We believe that participation in recycling increases when it's easy to do. Our customers toss all of their recyclables into one container sized for their business.

We offer 20, 30, and 40 cubic yard containers for construction job sites in Cumberland, Dauphin, and York Counties.

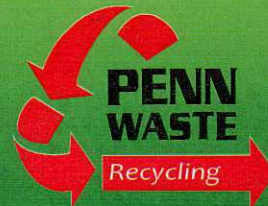

## What our customers say:

### Washington and Dowling Contractors, Inc.

"The prompt service that we get is exactly what our company needs, and we highly recommend your company and will continue to remain one of your best clients."

### Keystrect Construction, Inc.

"Keystrect Construction utilizes Penn Waste on all our projects, because working with Penn Waste is just that easy. We always meet each others needs and work agreeably with one another. Keystrect Construction is happy to continue our strong relationship with Penn Waste and looks forward to our future working together."
