

No batteries or devices that contain batteries in your trash or recycling cans

Irresponsible battery disposal is causing fires.

Types of batteries

If the item contains any type of battery that cannot be removed, it should be taken to a battery disposal drop-off location.

Household batteries

Lithium-Ion and Polymer

Nickel Cadmium

Nickel Metal Hydride

Specialty

1 Collect batteries

Check electronics. If possible, remove the batteries. If not, bring the whole device to the drop-off location.

2 Store safely

Store batteries in non-metallic containers (plastic, cardboard, or glass).

3 Drop off

Find a local disposal electronic store, or find a drop off location near you.

Treat batteries with respect.
Lives may depend on it.
